

DIVISION OF PEDIATRIC ORTHOPAEDIC SURGERY OUR TEAM

BENJAMIN D. ROYE, MD, MPH

Dr. Benjamin Roye joins the world renowned team of pediatric orthopedic surgeons at Morgan Stanley Children's Hospital of New York-Presbyterian after serving as Chief of the Pediatric Orthopedic Division of Mount Sinai School of Medicine for almost three years. Dr Roye was Assistant Professor of Orthopedics during his tenure at Mount Sinai, where he also was responsible for the development of resident training programs.

Dr. Roye is a graduate of the College of Physicians and Surgeons of Columbia University and completed his orthopedic residency through the College of Physicians and Surgeons of Columbia University at New York Orthopedic Hospital, during which time he earned the Harrison L. McLaughlin Trauma Award. He is fellowship trained in Pediatric Orthopedics at the Children's Hospital of Philadelphia where he advanced his interest in the treatment of scoliosis and clubfoot. He completed his undergraduate work at Hamilton College in New York State .

In addition to his medical training, Dr. Roye completed his Masters in Public Health from the Columbia University Mailman School of Public Health. Dr. Roye's research interests include quality of life issues for children with musculoskeletal concerns, and he has participated in several research studies with the MSCHONY Pediatric Orthopedic Research Group. He has authored peer-reviewed articles, written chapters for text books, and provided editorial review for hundreds of consumer articles on bone health and sports-related injuries.
